DG Employment, Social Affairs and Inclusion

Unit E2 – Skills and Qualifications

EU goals in a digital labour market

Better link education-training to labour → ensure access to the best opportunities

Ensure transparency of information on skills through systems' interoperability

Allow open-fair access to information on skills, qualifications, jobs and training

→ avoid monopolisation of data in digital labour market

→ European open standards to counteract risks of proprietary standards

Physical and earth science professionals
Subsistence crop farmers
Subsistence fishers, hunters, trappers ...

Occupations

2942
occupations

The occupations pillar is one of the three pillars of ESCO. It organises the occupation concepts in ESCO. It uses hierarchical relationships between them, metadata as well as mappings to the International Standard Classification of Occupations (ISCO) in order to structure the occupations.

Each occupation concept contains one preferred term and any number of non-preferred terms and hidden terms in each of the ESCO languages.

Each occupation also comes with an occupational profile. The profiles contain an explanation of the occupation in the form of description, scope note and definition. Furthermore, they list the

crop production worker

Code

3142.1

Description

Agricultural technicians collect and conduct experiments and tests on agriculture and aquaculture specimens. They provide support to scientists and farmers and also analyse and report on conditions in the collected specimens' environments.

Alternative label

biotechnician
viticulture technician
agricultural technologist
bacteriological testing coordinator
horticultural technician
aquaculture technician

analyse environmental data

analyse scientific data

analyse test data

apply safety procedures in laboratory

conduct field work

execute analytical mathematical calculations

gather experimental data

maintain laboratory equipment

write work-related reports

Essential Knowledge

laboratory techniques

Optional skills and competences

advise on fertiliser and herbicide

advise on the causes of crop disorders

assess crop damage

collect weather-related data

culture aquaculture hatchery stocks

evaluate vineyard problems

evaluate vineyard quality

inspect agricultural fields

irrigate soil

maintain aquaculture containers

Skills

13485 skills / competences

The ESCO skills pillar distinguishes between i) skill/competence concepts and ii) knowledge concepts by indicating the skill type. There is however no distinction between skills and competences. Each of these concepts comes with one preferred term and a number of non-preferred terms in each of the 27 ESCO languages. Every concept also includes an explanation in the form of

CURRENT ESCO IMPLEMENTATION- JANUARY 2020

- All the European PES by the end of 2021
- 5 Implementations in EU Public Administrations (e.g. EURES, CEDEFOP EUROPASS)
- 15 EU-Funded Projects

- 8 Job-boards
- 40 Private Companies
- 5 Education Institutions
- 4 Public & 1 Private Employment Service use ESCO directly in their system

ESCO mission & implementers

ADDRESSING THE NEEDS OF JOB-SEEKERS AND EMPLOYERS: ESCO SUPPORTS BETTER MATCHING OF PEOPLE TO JOBS

ESCO matches people to jobs

Public Implementers

- Almalaurea-Italy
- European Commission EMPL-EURES
- European Commission EMPL-Europass
- House of Skills-Netherlands
- Public Employment Service of Finland
- Public Employment Service of Hungary
- Public Employment Service of Iceland
- Public Employment Service of Ireland

Private implementers

- Actonomy-Belgium
- Adzuna-UK
- Dit Werkt-Netherlands
- eHRgo-France
- Experteer-Germany
- Foreammati-Finland
- IGB-Belgium
- Joblift-UK
- Kimbo-Italy
- Milch und Zucker - Germany
- Monster-Spain
- Nalantis-Belgium
- Opening.io-Ireland
- Randstad - Netherlands
- Textkernel-Netherlands
- WCC-Netherlands
- Wollmilchsau GmbH-Germany
- X-learn-France
- X-tramile-France

How can ESCO be used in job-search and job-matching applications?

- **Connecting national classifications** to exchange information on labour market data
- **Suggesting occupations and skills** for the creation of CVs and job vacancies
- **Improving natural language processing**
- **Classifying job vacancies in job boards**
- **Improving matching algorithms** based on skills characteristics and other factors (skill demand and supply, emerging skills, potential career paths, etc)
- **Visualising relevant skills** in a skills hierarchy
- **Creating a skills map** of a company's employees and matching them to new projects
- **Improving search results** when looking for a job

ESCO mission & implementers

Public Implementers

- Caisse de dépôt-France
- European Commission EAC - EIT InnoEnergy
- European Commission EMPL -Europass
- European Commission EMPL-EU Skills ProfileTool for Third country Nationals
- European Commission HR - EU Learn
- House of skills-Netherlands

Private implementers

- Accenture-Netherlands
- Ariston-Greece
- Boost.rs-France
- Certif-ID - Germany
- Cities of learning-EU consortium
- Docebo-Italy
- Fastgrowing - Italy
- Inforelea-Italy
- Odem-Switzerland
- Open badge factory-Finland
- Orange Cat-Netherlands
- Peers Solutions - Germany
- Skillab-Netherlands
- Skillsboard-France
- Techwolf-Belgium
- The Adecco Group-Italy

ADDRESSING THE NEEDS OF STUDENTS, EDUCATION AND TRAINING INSTITUTES AND EMPLOYERS: ESCO CONNECTS THE WORLD OF WORK WITH WHAT STUDENTS ARE LEARNING

ESCO connects the labour market to education and training systems

How can ESCO inform education and training reforms & talent management strategies?

- **Curricula development:** transparency, comparison and analysis of the content of a qualification
- **Creation of learning outcomes**
- **Creation of skills passports**
- **Personalised digital career guidance services:** suggestion of online & offline courses based on skills gaps, desired career path and trends in the labour market
- **Skills assessments and creation of psychometric tests**
- **Endorsement and visualisation of informal/non-formal learning** via open badges
- **Evidence-based curricula reforms** through skills intelligence
- **Collection and analysis of data** on skills trends to inform education and training bodies
- **Creation of individual's skills mapping for up-skilling and re-skilling strategies**

ESCO mission & implementers

Public Implementers:

- Bicocca University of Milano (CRISP)-Italy
- CEDEFOP-Greece
- University of Rzeszów-Poland
- West University of Timisoara-Romania

Private implementers:

- ETIL-Netherlands
- HeadAI-Finland
- Tabulaex-Burning Glass technologies-Italy

ADDRESSING THE NEEDS OF RESEARCHERS AND POLICY-MAKERS: **ESCO** FACILITATES THE COLLECTION AND ANALYSIS OF SKILLS AND OCCUPATIONAL INTELLIGENCE

ESCO supports the analysis of labour market data on skills and occupations

How can ESCO be used to carry out big data analysis of labour market information?

- **Extraction and classification of data** from online job vacancies, CVs and qualifications
- **Statistical analysis** of such labour market data and comparison across the EU
- **Analysis and visualisation of emerging skills** and occupational trends across the EU and economic sectors
- **Analysis and visualisation of similar career paths** based on skills transferability
- **Analysis and visualisation of skills supply and demand**
- **Assessment of skills mismatch** between learning outcomes of qualifications and skills required by the labour market
- **Assessment of the career paths of graduates** (graduate tracking) to analyse the mismatch or frequent patterns
- **Analysis of skills shortages and surpluses**

VINNUMÁLA
STOFNUN

European
Commission

Objectives of ESCO version 1.1

Changes in the labour market: new & obsolete occupations, changing nature

Changes in curricula: new knowledge and skills in education-training

Changes in terminology: changes in terms referring to occupations and skills

Changes in requirements by implementers and technological development

Opportunity to correct identified mistakes: misspellings or wrong metadata

**ESCO
version 1.1
analysis**

Duplication and
overlap of concepts

New and obsolete
skills & occupations

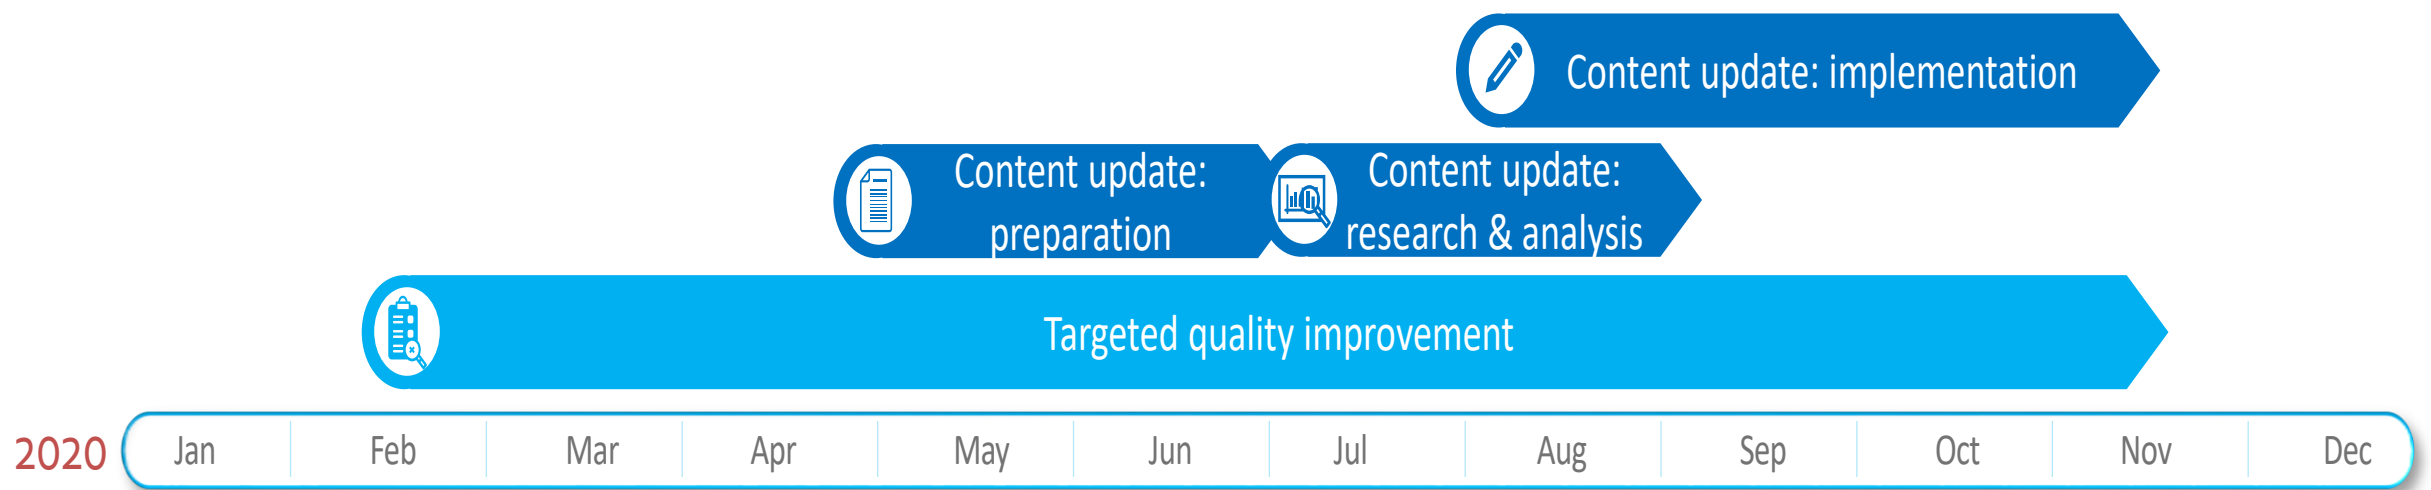

Relevance of skills for
occupations

Mistakes in
translations

ESCO update process

1. Preparatory phase: collection and analysis of feedback
2. Creation of new content and quality-assured translation in all ESCO languages
3. Release on ESCO portal

Consultation with the ESCO Member States Working Group on the ENG draft version and on the language versions

MS reply with amendments, comments or agreement

FIELDS to ESCO

Identification of existing occupations with skills-knowledge and gaps

Definition of new occupational profiles with skills-knowledge

Support to the Commission on profiles' terminology and descriptions based on ESCO guidelines and experience

Update of ESCO – quality review and content update

ESCO to FIELDS

Improve employability via complete and updated profiles

Improve employability across languages, systems and borders

Enable provision of education-training programs – reflecting current needs, online and tailor-made

Statistical data for employers, workers, jobseekers, education-training providers, learners, policy makers
