Kick-off meeting

3-4 February 2020

University of Turin, Italy

WPx Info

WP Start/end date: 01/2020-12/2023

Partners involved (PMs): All

Aim: The main goal of this WP3 New tools and training design is to create a network with European partners to aim at a comprehensive strategy to integrate a skilled agriculture and circular bio economy into the stream of a global food supply chain, consistent with EU policies and initiatives in both VET and agri-food sectors.

Main Objectives:

- Study the EU policies and current initiatives in VET and agri-food sectors
- Inventorize the necessary skills needed in the different agricultural sectors (including digital skills)
- Develop apprenticeship schemes at the different VET levels of education and add / Development of Green Skills.

WPX Tasks

- **TX.1** Identification of existing and emerging skills needs in the different sectors (sustainable agriculture, agri-food chains, circular bio-economy **(2020)**)

[**task leader**, partner, partner, partner]

- **TX.2** Research on how to bridge the gap between the objectives of bio-based economy & competences and the Education demands of (VET) education – reshaping agriculture **(2020)**

[**task leader**, partner, partner, partner]

- **TX.3** Development of Green Skills & developing a sector skills strategy **(2021)**

[**task leader**, partner, partner, partner]

- **TX.4** Implement strategic tools for the identification of future skills needs and the development of regularity frameworks **(2022)**

[**task leader**, partner, partner, partner]

WPX Deliverables & Milestones

Deliverables
